

2026 AGM

Complaints Director Annual Report – 2025

Introduction

GMBCU's Complaint Handling and Procedures Policy comprehensively outlines the Board's approach to this important area.

Complaints are a key source of management information. The FCA places great importance on both member feedback and accurate complaints recording, and they see the effective management of complaints as central to a successful business and an essential component of Consumer Duty legislation.

GMBCU is required to submit an annual report to the FCA and complaints management information may be requested by the FCA at any time.

During 2025, GMBCU recorded seven member complaints, six of which were resolved quickly and to the satisfaction of the individual members. The one outstanding complaint was resolved in March 2026. We did have four complaints lodged with the Financial Ombudsman, which ran over from 2024. We are pleased to report that these complaints were satisfactorily resolved with the Ombudsman upholding our actions in all four complaints.

Logging Complaints & Feedback

Every complaint both oral and written regardless of whether we feel that it is justified or not is recorded by the Complaints Officer in our Complaints Register and then communicated through the Compliance Director to the GMBCU Board.

Complaint Handling & Reporting

Any members who have an acknowledged complaint will be logged and will receive a final response within the statutory eight weeks.

If the complaint cannot be resolved within this timescale, for whatever reason, a letter (or email) will be sent to the member which explains:

- GMBCU's position
- Why we cannot make a final response at that time.
- When we will be able (or anticipate that we will be able) to provide a final response

In addition, the member will be told, in writing, that they may refer their complaint to the Financial Ombudsman Service (FOS) if they are dissatisfied with the delay. We will inform them that their referral to the FOS must take place within six months of the end of the eight week period.

Publicising the Complaints Procedure

To support our members, we clearly publicise how feedback and complaints can be made, reassuring members that we understand that occasionally things can go wrong but we will do our very best to put matters right as quickly as possible. The GMBCU website devotes a page to clarifying the complaints process for our members.

Governance and Oversight

Management information regarding complaints is supplied to the GMBCU Board on a regular basis for review and for the Board to act upon, where appropriate.

GMBCU's internal compliance function will regularly review our policy and processes, as well as the outputs from complaint handling activity as part of the compliance monitoring regime.

GMBCU reviews past complaints cases to identify any business shortcomings and development areas. Such data will be included in complaints handling management Information, reviewed regularly by senior management.

Any trends will be identified, the implication of these trends and their potential effect on other members, past and future. Staff training and / or remedial actions will also be taken, as appropriate.

Trustpilot

GMBCU introduced Trustpilot in September 2024 as we recognise it as a trusted independent indicator of member service. We value the member feedback through Trustpilot, which helps us improve standards and gives us an insight into how our members really think.

We are pleased to report that GMBCU has throughout 2025 commanded an excellent rating on Trustpilot.
